Annual Improvement Plan

PRIORITIES 2014

NUMERACY AND LITERACY
- All teachers contribute to the development of a numeracy and literacy plan which aligns with the local primary schools
- All teachers contribute to the numeracy and Literacy plan and have an understanding of the framework for monitoring improvements in both
- Through professional learning teams, some staff are trialling approaches designed to develop numeracy skills and are sharing findings with wider educational community
- Maths teachers will develop a common understanding of the improvement cycle and are able to collect and analyse numeracy data to inform their teaching and learning program
- The Multi Lit program is expanded and staffed accordingly

STUDENT ENGAGEMENT ACHIEVEMENT THROUGH QUALITY PEDAGOGY
- Teachers are developing and trialling differentiated tasks that support all students at their point of need
- Teachers possess an understanding of the underlying principles of the TfEL and this is being implemented into teaching practice
- Students, staff and parents gain an understanding of what it is to be a powerful learner
- The school has agreed expectations that focuses on Positive Behaviour for Learning
- Structured mentoring is implemented for all year 8 students

LEARNING PATHWAYS
- An Individual Pathways Team is developed to support and implement programs and strategies that facilitate individual students achieving their chosen post school goals
- A draft Student Pathways strategy (8-12) is developed incorporating DECD Career policies and processes
- Flexible learning and delivery strategies are further developed and implemented to support individual students undertaking community based programs and activities as part of their learning program

PROFESSIONAL CAPACITY
- Professional Learning Teams meet to discuss and reflect upon teaching practice on a regular basis
- TfEL Compass is trialled and implemented at a whole school level
- Staff are utilising the Professional standards for teachers in determining their professional development plans
